

Classic Sun-Filled Cottage In Sausalito

Enjoy this completely remodeled bright, south-facing two bedroom, two-and-a-half bath cottage in central Sausalito with peeks of San Francisco Bay. The owners have updated each room with sublime attention to detail, color, fresh ideas, fine appliances and more.

Their sense of style shows throughout: Touches were added only when they would enhance the home; embellishments were eliminated if superfluous.

Rich and beautiful Brazilian cherrywood floors, a gas fireplace, built-in flat screen televisions, a loft upstairs in the attic — perfect for a small office — stainless steel appliances in the especially charming kitchen, washer/dryer . . . and the home opens onto a large and lovely sun-filled yard with an ideal patio for BBQs, a lawn area shaded by an olive tree, and a hot tub.

Two downstairs master suites are SO sophisticated with elegant stonework in each master bath and frosted glass doors (one of which has a brilliant idea for the door, taken from one of the world's chicest hotels). Each bedroom suite has exterior access and opens to the yard and tub.

One-car, off-street parking, and plenty of on-street parking. This gem is in the heart of Sausalito close to restaurants, markets, shops, public transportation (including Golden Gate Transit and commuter Ferry Boats into San Francisco).

All one needs to do to begin enjoying this home is just move in! It is perfect!

Offered at \$1,333,000
